

Table 5.M

Narrative-links and three types of express time-terms in the *Book of Mormon*

Each of the 426 narrative-links represented in this Table is categorized: first, by its linguistic function (preposition, verb, conjunction, participle or adverb) as set forth in Table 5.E; and second, by the express time-term of its year-related expression as set forth in Table 3.F of this Division 1: official name (long and short names); altered name (including unique name); or personalized name. A fourth analytical type (omitted name) is included for comparability with Table 5.L, but omitted names, of course, are not express time-terms. Lastly, the data is sorted from largest to smallest by the numbers of express narrative-links and their associated percentages.
