

Table 5.O

Placement of narrative-links and three types of express time-terms in the *Book of Mormon*

Each of the 426 narrative-links represented in this Table is categorized first by its linguistic function (Q = preposition; R = verb; S = conjunction; T = participle; or U = adverb); and second, by the express time-term of its year-related expression (4 = official name; 5 = altered name; or 6 = personalized name). Omitted names are indicated with a hashtag #, but for purposes of pattern identification, they are disregarded. Parentheses have been added to help distinguish each category.
