

Table 5.Q

Narrative-links and three types of express number-terms in the *Book of Mormon*

Each of the 426 narrative-links represented in this Table is categorized: first, by its linguistic function (preposition, verb, conjunction, participle or adverb) as set forth in Table 5.E; and second, by the express number-term of its year-related expression: stated ordinal name; stated cardinal name; or common name (referenced ordinal, cardinal and general names) as set forth in Table 4.H of this Division 1. A fourth analytical type (absent name) is included for comparability with Table 5.P, but absent names, of course, are not express number-terms. Lastly, the data is sorted from largest to smallest by the numbers of express narrative-links and their associated percentages.
