

Table 5.S

Placement of narrative-links and three types of express number-terms in the *Book of Mormon*

Each of the 426 narrative-links represented in this Table is categorized first by its linguistic function (Q = preposition; R = verb; S = conjunction; T = participle; or U = adverb); and second, by the express number-term of its year-related expression (10 = stated ordinal; 11 = stated cardinal; or 12 = common). Absent names are indicated with a star \*, but for purposes of pattern identification, they are disregarded. Parentheses have been added to help distinguish each category.
